

## SAP Signavio Collaboration Hub

Accelerate collaboration, harness the collective wisdom, and transform your work processes.

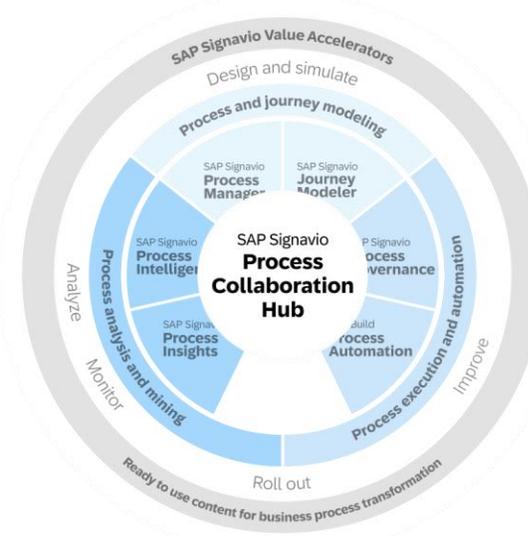

### Solution Overview

DXC is your trusted partner to help you share the big-picture view of their process landscape with an intuitive presentation mode. SAP Signavio Collaboration Hub unites employees across an organization at a transparent meeting point and combines their expertise while fostering visibility and teamwork. Process specialists and business users can work together, increasing the adoption of new processes. Navigate the entire process repository with ease and show the interactions that matter. Help ensure a common understanding across an entire organization. Have the things needed in one place, from process models through to Process Governance. View process-related content that has recently changed and mark the content that matters to navigate back to more easily.

### Customer Goals

- Curate content and ease consumption while increasing collaboration
- 360-degree view of your entire process landscape
- Provide process transparency
- Keep your teams informed

### Customer Benefits

#### Have full visibility on your entire process landscape

Get a 360-degree view of your process landscape with an intuitive presentation mode, from documentation to analysis and key metrics.

#### Single Source of Truth

Help ensure a common understanding across your entire organization with SAP Signavio Collaboration Hub. You can provide access to all SAP Signavio solutions for process experts and professionals from one single location.

#### Provide cross-departmental collaboration on process improvement and execution

Unite employees across your organization at a transparent meeting point to combine expertise while providing full process visibility and fostering teamwork and collaboration.

### Features:

- Content Management and Collaboration
- Audience and Access Management
- Customizable User Experience
- Centralized launchpad
- Integration with SAP Signavio product suite
