SAP Certified Professionals Worldwide

SAP Signavio Alliance Team

DXC is continuing to develop SAP Signavio capability across all regions, with over two years of hands-on experience delivery SAP Signavio to clients

To ensure we are up to date on all the SAP Signavio capabilities and client offerings, DXC maintains a close, direct working relationship with the SAP Signavio Alliance Team

Customer Benefits

Maintain organizational and regulatory compliance of all documented processes

Govern and automate process lifecycles and approvals through multilevel layers. Enable process collaborators and owners to work together to keep processes up to internal standards and external compliance requirements.

Provide process-integrated risk and control management

Manage risk and controls centrally within one place with the dictionary in SAP Signavio Process Governance. You can more easily organize risk and control items, check where specific items are used within processes, and easily link created items to other processes and tasks.

Build configurable approval workflows quickly and easily

Configure approval workflows using standard BPMN, get rid of spreadsheets and track your approval tasks directly. Use SAP Signavio Process Governance to configure and execute workflows and analyze data in the SAP Signavio Process Intelligence solution or an external BI tool.
